PEOPLE FIRST

GO digital!

- and experience clear digital sound quality

GO is a new hearing aid solution that gives you all the benefits of modern digital hearing care at a more affordable price. GO is fully automatic and provides clear digital sound quality.

The attractive GO instruments feature an ergonomic design that makes it easy to use. You can depend on GO to provide reliable performance day in and day out. Try GO today and experience how easy it is to GO digital!

GO digital offers you:

- clear digital sound
- wide range of different instrument styles to match your unique needs
- cosmetically attractive and easy to use solutions
- light and slim Behind The Ear instruments
- small and attractive In The Ear instruments
- excellent reliability
- modern advanced digital technology from Oticon
- one of the leading manufacturers in the World

Freedom of choice

GO offers a choice between small In The Ear (ITE) hearing aids and attractive Behind The Ear solutions (BTE). You also have a choice of colours and options like a push button telecoil for telephone use and/or a volume control wheel.

Individual programming

Your hearing care professional can program your GO hearing aids to match your unique situation. GO is programmed with a computer so you can make the most of your current hearing and live the life you want.

Listen to the world around you

GO opens up a new world of sounds with crystal clear quality. GO digital hearing aids provides a comfortable sound so that soft sounds become audible, and loud sounds are controlled for a better listening experience.

People first

We believe that it takes more than technology and audiology to create the best hearing instruments. That's why we put the individual needs and wishes of hearing impaired people first in our development of new hearing care solutions.
